TECHNICAL SKILLS

Strong: Javascript, SQL, GIT, AngularJS, React.js, Redux.js, Express.js, HTML, CSS, AJAX, JQuery, ES6, Node

Experience: MongoDB, Mongoose, JQuery, HTML5/CSS, Bootstrap, Backbone, D3, AWS, Backbone

SOFTWARE ENGINEERING APPLICATIONS

Hungry Adventure I

Site: www.hungryadventure.com

Git: <https://hungry-adventure.github.io/HungryAdventure/>

Provides a list of travel destinations and options for a specified budget amount entered

- Aggregated API data from multiple sites from the back-end to front to create an innovative travel app
- Engineered React components, managed apps state using React and Redux
- Assembled third party API data for each destination on the results page (events, weather, and fun facts)

Reminder X I

Site: <http://reminder-x.herokuapp.com/>

Git: github.com/bryam813x/med_tracker

Tracks medicine interactions and sets reminders to the user for when to use the prescribed medication

- Constructed an interactive and intuitive UI using Bootstrap and AngularJS
 - Initiated Node cron jobs and Twilio to send SMS reminders at regular intervals
 - Created reports on drug interactions utilizing National Library of Medicine API
-

EXPERIENCE

Socially LLC 2013-2016 Virginia beach/ <http://bit.ly/2oJs0sM> - Web Designer

- Utilized existing software and web design techniques (webplus, appMakr and many plugins) to create applications for business owners. These apps are published and widely used by hundreds of people
 - Established a web app company made specifically for servicing business owners
-

TIDEWATER COMMUNITY COLLEGE, 2013 Virginia Beach - *Computer Science*

ALPHA COLLEGE OF REAL ESTATE, 2013 Virginia Beach - Real Estate license Virginia State

COMPTIA, A+ *Web plus basics and essentials.*

PERSONAL

I started watching football ever since the Buccaneers won the super bowl while i was living in Tampa, FL and witnessed the city go nuts over it!
